February 26, 2007

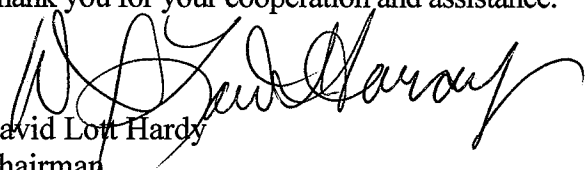

To: All Communications Service Providers

The Indiana Utility Regulatory Commission (IURC) periodically gathers data to provide the Indiana General Assembly with timely information on communications issues. With the passage of HEA 1279 and Governor Daniels' signature of the bill into law last year, the Commission is tasked with reporting on the effects of competition and technological change on universal service and on pricing of telecommunications services. Furthermore, we are tasked with reporting on the status of competition and technological change in the provision of video services. For this report we are inquiring about basic telecommunications services as defined IC 8-1-2.6-0.1, video services as defined in IC 8-1-34, and broadband connection services.

In order to fulfill this objective and complete our report in a timely manner, we request that the **IURC Communications Survey** form and/or an electronic equivalent be completed and returned to the IURC Telecommunications Division **no later than April 9, 2007**. All questions should be directed to Brandy Darlington at (317)-232-5559 or bdarlington@urc.in.gov.

In the immediate future the IURC will be issuing an action regarding how confidentiality of the survey will be treated. Once the action is taken the IURC will post it to www.in.gov/iurc/utilities/telecom/survey

Thank you for your cooperation and assistance.

David Loft Hardy
Chairman

Indiana Utility Regulatory Commission
